

Wanted: Junior Web Developer / Programmer

Terms

Full-time / Contract

Start Date

Within the next one month

Remuneration

Negotiable (RM 1,800 – RM 2,200 per month)

Experience Requirements

At least 1 year experience. Fresh grads with non-commercial project experience will also be considered and encouraged to apply.

About the Position

The candidate will work with a team of specialists in a project capacity to develop web based products. In addition to that, the candidate would also support the engineering, technical and design team.

Someone who has built web applications in the past, preferably with open source tools and languages, and has knowledge of AJAX would be advantageous.

The candidate we are looking for should be a fast learner, self starter and is able to work on his/her own with minimum direct supervision. This position requires the need for a "startup mentality", i.e. Do whatever it takes to get the job done. The candidate should also be a strong team player. Full-time and contract positions available.

Advantages

- Lively, friendly and youthful working culture, flexible working hours
- challenging job scope; expect to learn and do new things in various areas
- excellent chances to move up the ranks with more roles & responsibilities
- chill and work at the same time; we enjoy what we do, so you can expect to obtain the same mindset as well (we certainly hope you do)
- opportunities to learn and grow with the company. We want to stand out and move fast ahead of the pack in the world of web information technology, while placing emphasis on the user experience.

General Requirements

- Must be a kick-ass programmer, so paper qualifications is not compulsory. However, it would not hurt if you possess either a Certificate, Diploma, Advanced/Higher Diploma, Bachelor Degree, Post Graduate Diploma, Professional Degree or Master Degree in Computer Science or Electrical/Electronic/Software Engineering or related field
- Language: must have good English writing & oral communication skills
- Interests in the Internet/mobile industry would be a plus point
- Ability to multitask, excellent judgment, problem solving & analytical abilities
- Must be prepared to work long hours, even weekends and public holidays if necessary
- Must be prepared to accept new responsibilities as and when necessary

Skillset Requirements

- Familiar with any combination of these Web Development Tools & Programming Languages & RDBMS (PHP, Ruby On Rails, ASP.NET, JSP, EJB, MySQL, PostgreSQL, MSSQL, HTML, Javascript, Flash).
- Added advantage skills: Framework experience
- Familiar with Windows, Linux and UNIX operating systems.
- Knowledge in AJAX or RIA development is advantageous.
- Independent, Autonomous and Result-oriented work ethics.
- Fresh graduates are encouraged to apply.

How to apply
